**REVISION OF PENSION/ FAMILY PENSION IN RESPECT OF PRE-2016 RETIREE
DEFENCE CIVILIANS**

"A"

1. On the website of PCDA (P), a huge number of cases are being reported as "Rejected/ returned" by the PCDA (P).
2. A study has been carried out by the CRO (O) regarding this. There are many mistakes and anomalies in this reporting of rejected cases.
3. Based on the brain storming carried out by us the following procedure is suggested:-
 - (a) Download the list of rejected cases pertaining to your "HOO Code" from the CDA website (Procedure given as post-script here).
 - (b) You may find that some cases for which the revised PPO has been issued, are also included in this list. Mark those (for NFA).
 - (c) Some names may be written more than once, in this list itself. Mark those also.
 - (d) For some cases you might have taken action already. We have asked you (more than once) to "re-submit the rejected cases promptly", and you must have done the needful. Mark these for "NFA but monitor".
 - (e) For the balance, please "submit the case again w/o waiting for the "faulty documents" (from CDA P).
4. Your suggestions, for further improvement, will be appreciated.
