MESSAGE

1. On the momentous occasion of the 243rd Corps Day, on behalf of the Indian Navy, I extend warm greetings to all personnel of the coveted Corps of Engineers.
2. Being one of the most venerable arms of the Indian Army, the Corps has been a vital cog in the wheel, rendering yeoman service to the Armed Forces and the nation. With its ability to evolve with times and maintaining highest levels of professionalism, the Corps has contributed substantially in keeping our Armed Forces fighting fit. The Indian Navy has been closely associated with the Corps, and the strong bonds we share have resulted in regular delivery of state-of-the-art infrastructure projects.
3. This cohesion will be of immense importance as we march into the *Kartavya Kaal*, wherein, we will be expected to cement our Nation's rise through a robust foundation of assured security. I am confident that the Navy and Corps of Engineers will continue to work in synergy, bringing to fruition, ongoing and future projects and support facilities.
4. My greetings and warm wishes to the Corps and their families, and wish them continued success in every endeavour.

Jai Bharat!

Dated: 18 Nov 23

Hari Kumar
